**THEY'RE BACK!**

Summertime long term transients, a.k.a. MTOA-ers. That is, members of Marine Trawlers Owners Association. A couple couples of whom you will see a lot are Jim & Julie Bertch, and Chuck & Pat Berry on B-Dock. Their primary boating interest is in the cruising lifestyle. They've never met a stranger and like helping each other out with live-aboard boating conundrums and/or repairs. And social occasions!

Favorite rites of passage include regional rendezvous with up to a hundred trawlers, assorted yachts and even sailboats in attendance. Think "Trawler Fest" without the exorbitant expense of same. The next big "do" in our neck-of-the-woods will be the 2010 Northern Rendezvous, "The Baltimore Bash", September 14-16 at Anchorage Marina, Baltimore, MD, which incidently will be the 20<sup>th</sup> anniversary of the organization. Most folks come early and leave late, generally b/c the hosting marinas give such favorable rates.

Olverson's Marina has become the official port/marina of MTOA, enabling members to take advantage of Yachting Club of America (YCA) reciprocal yacht club privileges, amenities and discount transient fees all over the US, Hawaii, Alaska and Virgin Islands.

Check out MTOA's website for more info: [www.mtoa.net](http://www.mtoa.net). And if you happen to become interested in membership, tell 'em Cas Olverson, MTOA Member # 2111, sent you! That rascal Fred has taken credit for too many new members I (Cas) have convinced to join!

**FRED SAYS.....**

FYI, we have purty, new, free postcards of the marina for anyone who wants them. In case you'd like to let friends and/or family know where you are spending your R&R time. Stop by the office and pick some up. Also, we would be grateful if you were to sprinkle some amongst any trailerable boaters or RV owners you might know so as to spread the word about the covered land storage available on site.

**BOTTOM TALK!**

Get yer mind out of the gutter...we're talking about barnacled boat bottoms and the like. In case you haven't run across him yet, we have our own captive diver here at the marina, Hank Chaney. And, as we have mentioned before, wife Teresa Chaney, is available for boat cleaning and detailing. The Chaney's are located on C-Dock and reachable at (317) 518-5147 cellphone.

**PLEASE LET US KNOW.....**

For some untoward reason, the docks have been popping up an unusual number of nail heads. Let us know and we'll smack 'em back down. Same goes with any other safety matters you see, of course. We want people to have fun around here, not get hurt.

**CALLING ALL FISHERMEN/WOMEN!**

Fred's Uncle Pete Payne, R-Dock (runabout slips), reports fishing to be THE most plentiful, the BEST he has ever experienced on/around the Yeocomico! That's a lot of years, Folks! The other morning, he was out for only about an hour and a half, and came back with 55 fish. That's a lot of fish!

**SAVING THE BEST FOR THE LAST...???**

John & Lynn Olivier are making available to OM boaters the best-est, fresh-est eggs from their free roaming hens every Friday/weekend, \$2/dozen on the roundtop table at Liar's Corner outside the office.

**SAFETY FIRST, COURTESY SECOND...ON THE WATER!**  
Fred & Cas Olverson, Stephen & Jodi Trice, Lynn Olivier and Mann Jackson
